

### Rosenberger wins Bavarian Quality Award 2012

First time awarded 2006, Rosenberger has been honored again this year with the Bavarian Quality Award in the industrial companies category.

During the award ceremony in the Munich Residence, a total of nine Bavarian companies from the areas of industry, trade, commerce and services as well as three business-friendly communities were honored with the Bavarian Quality Award 2012.

The Bavarian Quality Award was established in 1993 by the Bavarian State Government. Prizes are awarded to Bavarian companies who lead the way with company-wide quality management concepts, as well as Bavarian communities, who create business-friendly conditions.

Congratulations!
