Aerospace, Security & Defence Connectivity Solutions

Rosenberger provides a comprehensive product portfolio of high-reliable interconnect components and devices qualified for aerospace, security & defence applications. A wide range of products fulfill the stringent requirements of MIL-PRF 39012 standard, DIN EN 9100 or even ESCC Certification of the European Space Agency (ESA).

A new brochure showcases Rosenberger’s wide product range qualified for this area - RF coaxial components, microwave components and cable assemblies, RF test & measurement products or fibre optic connectivity components.

For information in detail please visit the Microsite Aerospace (www.rosenberger.com/aerospace/).

About Rosenberger
Rosenberger Hochfrequenztechnik GmbH & Co. KG was founded in 1958. Rosenberger, a family owned company, ranks today among the world-wide leading manufacturers of standard and customer-specific connectivity solutions in high frequency, high voltage and fibre optic technology.

The product range covers RF coaxial connectors, RF test & measurement products, RF connectors for automotive electronics, medical and industrial electronics as well as fibre optic products, and cable assemblies. Renowned companies in high-tech industries, e.g. telecommunication, data systems, medical electronics, industrial electronics, test & measurement, aerospace engineering or automotive electronics trust the precision and quality of Rosenberger products.

Rosenberger is certified to IATF 16949:2016, DIN EN 9100, ISO 9001 and ISO 14001.

More than 2,300 people are employed today at the Rosenberger headquarters in Fridolfing/Tittmoning (Upper Bavaria, Germany). Worldwide, the Rosenberger group operates manufacturing and assembly locations as well as Rosenberger sales offices in Europe, Asia and North and South America where – in total – approx. 11,300 employees develop, produce and sell our products.
