Fridolfing, September 2020

Technology Days: International Digital Conference on Single Pair Ethernet

(09/20) On September 22 and 23, the SPE System Alliance hosts an international, digital exchange of knowledge between experts of different industries and technology sectors on the topic of Single Pair Ethernet. The Technology Days, taking place for the first time this year, provide participants with the opportunity to talk to specialists and to inform themselves about the added value of this communication technology. A keynote, discussions, and an exhibition constitute the framework of this digital conference. Partners of the SPE System Alliance, like Dätwyler, Fluke Networks, Kyland, Microchip, Phoenix Contact, Prysmian Group, R&M, Rosenberger, Sick, Telegärtner and Weidmüller, will point out trends within SPE technology and explain the relevance for components like switches, semiconductors, sensors, connectors, and cables.

The program will take place at different times on both days so that everyone around the world who is interested in the Technology Days can visit them virtually. The conference will be held in English. If you want to register for the digital conference on September 22 and 23, 2020, please follow this link www.singlepairethernet.com/TechnologyDays. The program can be found here as well. The exhibition will be open for all participants until October 2, 2020.

About the SPE System Alliance

The SPE System Alliance is an association of leading technology companies from different industries and fields of application who bundle and exchange their expertise regarding Single Pair Ethernet. All partners thus pursue the common goal of promoting the SPE technology for the IIoT and every other field of application. For more information on the SPE System Alliance, visit www.singlepairethernet.com

About Rosenberger

Rosenberger Hochfrequenztechnik GmbH & Co. KG was founded in 1958.

Rosenberger, a family owned company, ranks today among the world-wide leading manufacturers of standard and customer-specific connectivity solutions in high frequency, high voltage and fibre optic technology.

The product range covers RF coaxial connectors, RF test & measurement products, RF connectors for automotive electronics, medical and industrial electronics as well as fibre optic products, and cable assemblies. Renowned companies in high-tech industries, e.g. telecommunication, data systems, medical electronics, industrial electronics, test & measurement, aerospace engineering or automotive electronics trust the precision and quality of Rosenberger products.

Rosenberger is certified to IATF 16949:2016, DIN EN 9100, ISO 9001 and ISO 14001.

More than 2,300 people are employed today at the Rosenberger headquarters in Fridolfing/Tittmoning (Upper Bavaria, Germany). Worldwide, the Rosenberger group operates manufacturing and assembly locations as well as Rosenberger sales offices in Europe, Asia and North and South America where – in total – approx. 11,300 employees develop, produce and sell our products.
