## Rosenberger Signs Distribution Agreement with TTI Europe

Rosenberger, a leading manufacturer of RF connectivity products and systems, strengthens its European sales strategy by signing a distribution agreement with TTI, Inc.- Europe, the renowned electronic components and systems distributor.

The distribution agreement covers the Rosenberger product portfolio - RF coaxial connectors, test & measurement products, and cable assemblies for mobile communication networks, data centers, industrial test & measurement, automotive electronics, high-voltage

contact systems, medical and industrial electronics, as well as aerospace engineering. TTI safeguards immediate availability of Rosenberger products to customers in the EMEA region.

“We are excited to expand our EMEA channel strategy with this new agreement. We share a mutual focus in industrial, aerospace & defence and transportation markets, as well as a strong cultural alignment, which will set the course for common growth and future success”, says Frédéric Klein, Senior Vice President Global Sales Interconnect Rosenberger. “We are confident that our strengths in cutting-edge technology and highly efficient manufacturing processes coupled with TTI Europe’s extensive sales network and strong stock commitment will form a powerful partnership, adding real value for customers that rely on the precision and reliability of our products.”

“Rosenberger is very well respected in the market for its advanced technology, and we are delighted to have signed this EMEA distribution agreement with them, giving our customers access to a wider product portfolio in high-frequency, high-voltage and fiber-optic technology,” said Ronald Velda, Supplier Marketing Director Europe - Connectors & Emech for TTI. “Our significant stock package investment demonstrates our dedication to both Rosenberger and to providing better technical solutions for our customers, making us thrilled about the future and about growing together.”

### About Rosenberger

Rosenberger is one of the world’s leading manufacturers of impedance-controlled and optical interconnect solutions in high-frequency, high-voltage and fibre-optic technology.

The product range covers RF coaxial connectors, components and accessories, RF measurement products as well as cable assemblies for mobile communication networks, data centres, industrial test &

measurement, automotive electronics as well as for high-voltage contact systems, medical and industrial electronics as well as aerospace engineering. The Custom machining division manufactures customer-specific precision parts from all machinable materials for various industries such as the automotive and commercial vehicle industry, ship building or classic mechanical and plant engineering.

Worldwide, the Rosenberger Group operates manufacturing and assembly locations as well as Rosenberger sales offices in Europe, Asia and North and South America where – in total – more than 15,000 employees develop, produce and sell our products. Rosenberger Hochfrequenztechnik GmbH & Co. KG with its headquarters in Fridolfing/Germany, was founded in 1958 and has been family-owned ever since.
